- BRADLEY GARTH GREEN LIB
- JOE BUCHMAN

PROPOSITION
Shall the City Council (the "Council") of the City of St. George, Utah (the "City"), be authorized to issue General Obligation Bonds (the "Bonds") in a principal amount not to exceed Twenty Nine Million Dollars (\$29,000,000) to pay all or a portion of the costs of acquiring, constructing, and improving Trails, Parks, and Recreation facilities and amenities throughout the city, for the purpose of connecting communities and revitalizing existing facilities; said Bonds to be due and payable in not to exceed twenty-five (25) years from the date of issuance of the Bonds?

Property Tax Cost of Bonds: If the Bonds are issued as planned (and without regard to the existing taxes currently paid for existing bonds ("Existing Bonds") that will be retired an annual property tax sufficient to pay debt service on the Bonds will be required over a period of twenty-five (25) years in the estimated amount of \$32.21 per year on a \$584,740 primary residence and in the estimated amount of \$58.57 per year on a business or secondary residence having the same value. As noted above, The City has Existing Bonds for which a tax decrease would occur upon the retirement of the same. The combination of the scheduled retirement of the Existing Bonds and the issuance of the proposed bonds, as planned, is expected to result in no property tax increase (\$0.00) on a primary residence or business property within the City from current property tax levels. The foregoing information is only an estimate and is not a limit on the amount of taxes that the Council may be required to levy to pay debt service on the Bonds. The Council is obligated to levy taxes to the extent provided by law in order to pay the Bonds. The amounts are based on various assumptions and estimates, including estimated debt service on the Bonds and taxable values of property in the City of St. George, Utah.

Write-in
