

Climatic and Geographic Design Criteria Not produced by Ashrae

R301.2(1)

State	Station Heating	Degree Days (Base 65°)	Design Temperatures		
			97.5%	Winter Dry bulb 2.5%	Summer Wet bulb 2.5%
UT	St. George	(3215)	26°	102°	70°

Ground Snow Load	Roof Snow Load	Wind Speed (mph)	Site Class By	Seismic Design Category	For St George
21	15	90	Soils/Eng	Structural Eng If E or F Category	IBC - D IRC - D1

Weathering Depth	Subject To Damage From Design Criteria		
	Frost Line	Termite	Decay
Moderate	12"	Moderate	None

FLOOD

- A Date of jurisdiction's entry into the National Flood Insurance Program 11-15-84.
- B Adoption of the first code or ordinance for management of flood hazard areas 11-15-84
- C Currently effective
 - F. I. R. M. January 7, 1998
 - F. B. F. M. January 7, 1998
 - Flood hazzard map adopted August 19, 1997
