Class Descriptions

*All workshops are
FREE and held at
Tonaquint Nature
Center
1851 Dixie Drive
Space is limited so
please call 673-3617
to reserve your spot.*

Raised Bed Gardening. This class will go over how to garden in raised beds and present the how-to's of creating your own raised beds.

Bulbs by Design. Christena Gates, Temple Square horticulturist, will teach how to design with bulbs. Class will include planting and care for success bulbs in your landscapes.

Fall Into Vegetable Gardening. One of the benefits of living in southern Utah is the long growing season. Learn how to make this climate work for you and your vegetables.

Winter Wonder Color Landscapes. Create color and creativity in your landscape even during the cold winter months.

Fall Festival. Autumn is in the air. Sounds of soft music, scent of cinnamon rolls, warmth of hot chocolate. Excite your senses in *The Garden*

Tried & True Trees & Shrubs. Protect your investment. Instruction will be given on how to prune and properly care for your trees and shrubs.

Spring into Vegetable Gardening. Learn how to make this climate work for you and your vegetables.

All About Herbs. Everything you wanted to know about herbs and more: selecting, growing, culinary use and preserving.

It's All In The Container. From patios to large yards, learn how you can color your green thumb and add more space and visual interest using containers. Techniques will be taught on care for potted plants and minimizing water use. Instruction will also be given on how to care for potted plants while away for extended periods of time.

Irrigation Audits & PRV's. Understand how your system works and how to make it more efficient.

Cactus & Succulents. Learn the general scope of cactus & succulent rearing.

The Garden Fair. Fun can be had for all the family. Booths, bounce house, treats can all be found here in celebration of Water Week. The annual Water Walk follows this event.

Water Walk— Participate in a symbolic 2-mile walk of what families in water stressed communities have to make everyday to get their water. Walk from *the Garden* to Cottonwood Cove Park. Shuttle available back to Garden
