

Toilets that Flush with less

Approved toilets

- ◆ Flush at least 250 grams of waste material
- ◆ Flush less than 2.0 gallons per flush (gpf) with a standard replacement flapper or have a specific flapper or flush design that uses less than 2.0 gpf.

Products with three stars *** use 1.28 gpf or less (20% less than standard toilets).

For questions contact René Fleming at rene.fleming@sgcity.org or visit the City's website at www.sgcity.org
