

Looking for a way to improve the efficiency of your irrigation system? Consider using a SWAT device. SWAT is an acronym for Smart Water Application Technology. A SWAT device waters the landscape based on soil types, plant needs and weather conditions.

The Washington County Conservancy District (WCWCD) is offering a rebate for installation of this type of device. It's easy to do.

- 1 Complete the rebate form
- 2 Submit it to the WCWCD
- 3 A credit will be issued to your City utility account

For more information contact René Fleming, Conservation Coordinator at rene.fleming@sgcity.org
